Mentimeter

What are your wheels of choice?

12

24

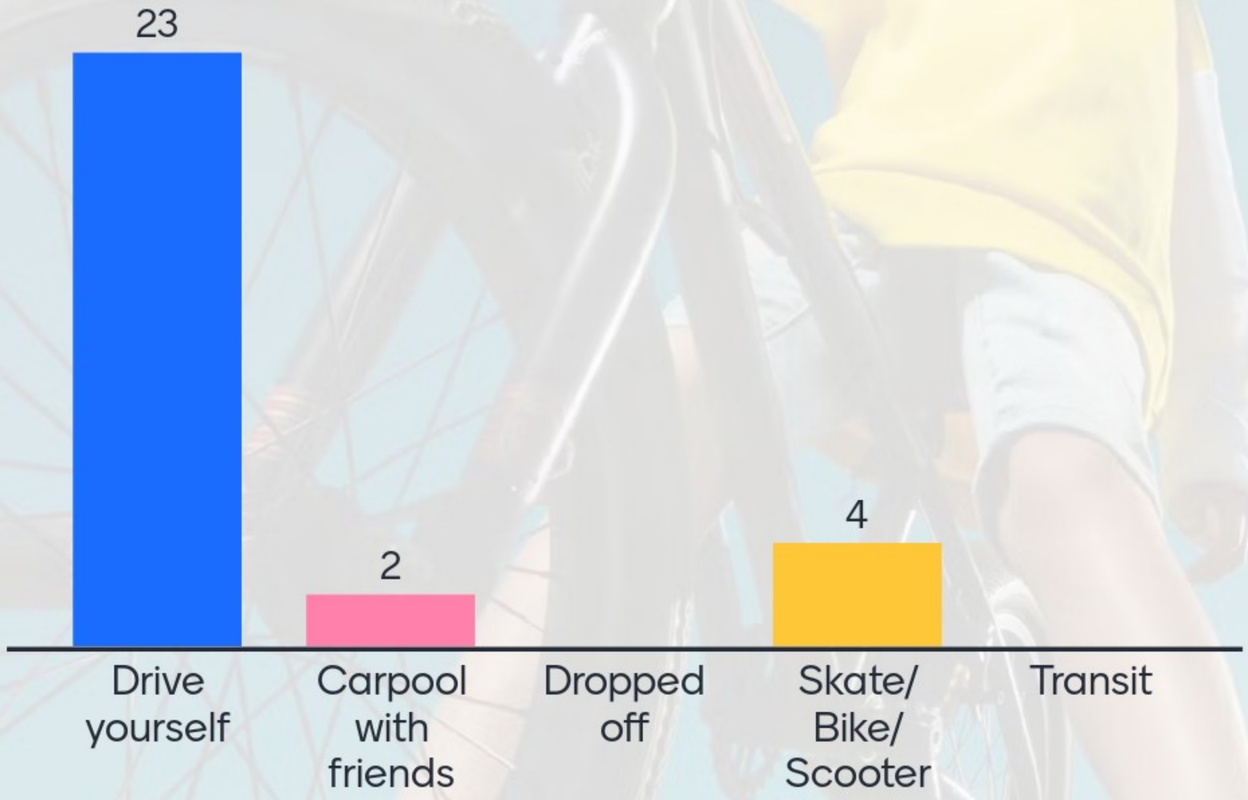

How would you rate your skill level?

Mentimeter

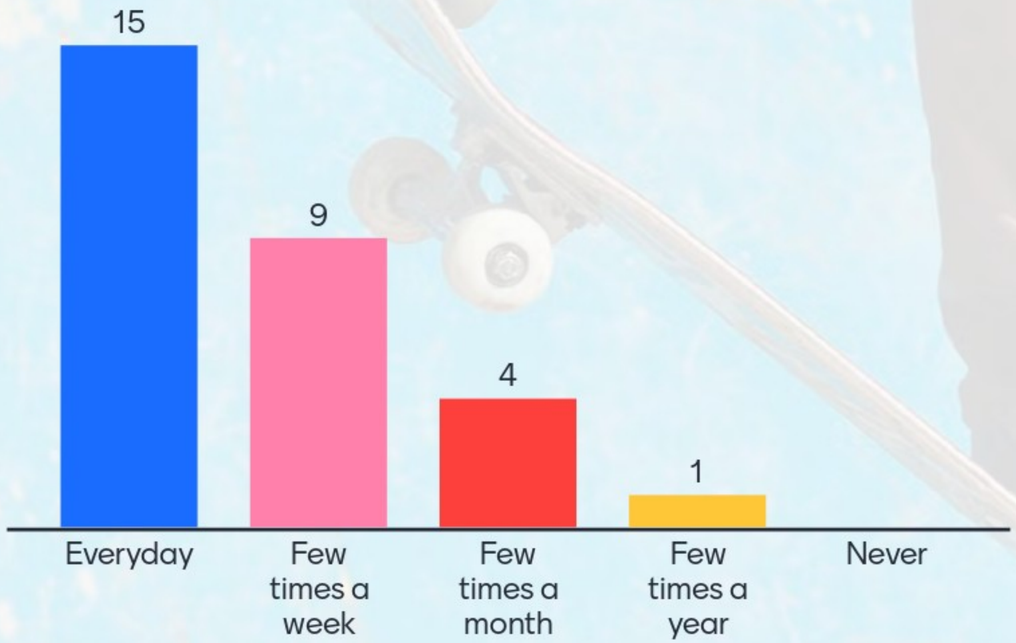

How do you plan to access the new park?

11 29

Mentimeter

How often do you plan to use the skate park?

13 29

I am excited by the skate park because

our park sucks

Roller derby

I'm desperate for fun.

Finally get good at skating lol

Derby

Roller derby

It will be pretty chill

GODZILLA

I am excited by the skate park because

Roller derby literally changed my life, and now we currently have no place to train or play.

Roller skating

I'm excited to have derby back again and to be able to hit my friends again.

It is Finally Happening

Something new

there'll be more options for roller skaters

Having a better park

I am a scooter rider and have been riding here for 10 years and have progressed so much and I'm just excited for something new to progress even further

I am excited by the skate park because

Roswell roller derby brought in approximately 900 spectators! I'm excited to bring that excitement back to our community!! To have a place do practice so I don't have to drive all the way to Lubbock!

I'm tired of biffing because of the cracks

We can attract people from all over the world if we have a decent skatepark worth checking out here. Also the potential to attract more pro skaters is there too

Have been skating all of my life. It's brought me closer to friends that I now call family. Not only that it'll help the future generation from staying out of trouble

Hockey

It will open the door for both new and experienced skaters to enjoy what they love

This will be a place for youth and adults to recreate together. The active involved adults will be helping youth expand on their skills. My kids love roller skating but right now can only go on roads.

It will give the community an awesome new place to gather and socialize, while learning, growing, and becoming more involved.

I am excited by the skate park because

We need a fresh spot and the current park is beginning to deteriorat

gives a chance to advance

Hockey

Hockey

Because I have to drive all the way to Lubbock rx to play roller derby. Would be amazing to bring that back Roswell!!

Because our park is breaking down in some areas and it's kinda small

I want to foster a youth roller derby league and this would provide the space to do so!

It can bring a lot of visitation in from others coming from town, especially if the UFO theme is used. Excited to have a place to skate

I am excited by the skate park because

I really want a flat safe place to skate i really hope we get that!

Having a safe place for kids to skate

My daughter loves to roller skate and wants to be a derby girl

Roswell's young people need fun activities and a safe place to skate!

Our youth need a safe place to play

we need proper things to skate with good flow. a modern vert/street sections with advance/beginner areas as well. snake run proper spacing, ufo themed to bring people. and ufo skate modules

proper bowls for vert skating or surf style skating.
